Getting Access to the POD

1. There are two methods you can get access to the access detail as mentioned below

a) Check for the Url and Port Number in the email from support@cloudmylab.com

CML New Booking

 **support** <support@cloudmylab.com> ✕

to: [Redacted]

Dear User,

Thanks for choosing Cloudmylab for your Learning needs.

Access Details:
RDP: [65.49.10.89:56](#)

Session Start Time: 2018-01-01T07:00 Pacific Standard Time
Session End Time: 2018-01-02T07:00 Pacific Standard Time

You can convert your time here
<https://www.timeanddate.com/worldclock/converter-classic.html>

b) Check your 'Rack Access' section on [My Account](#) page.

[Dashboard](#) [Schedule Details](#) [★ Rack Access](#) [Add New Schedule](#) [Edit My Profile](#)
[Change Password](#) [View Orders](#) [View Tickets](#)

ID	Rack Name	Start Time	End Time	RDP IP	Port	Email	Session
1	EVE-NG-TRIAL	Jan 01, 2018, 7.00 a.m.	Jan 02, 2018, 7.00 a.m.	65.49.10.89	56	[Redacted]	true

2. Login with the credentials provided

3. Once you login you will see a customized Desktop from where you can access all the devices

How to restart EVE-NG VM

Once you get the access to the Guest Desktop Environment

A) Open Chrome, you will see following bookmarks

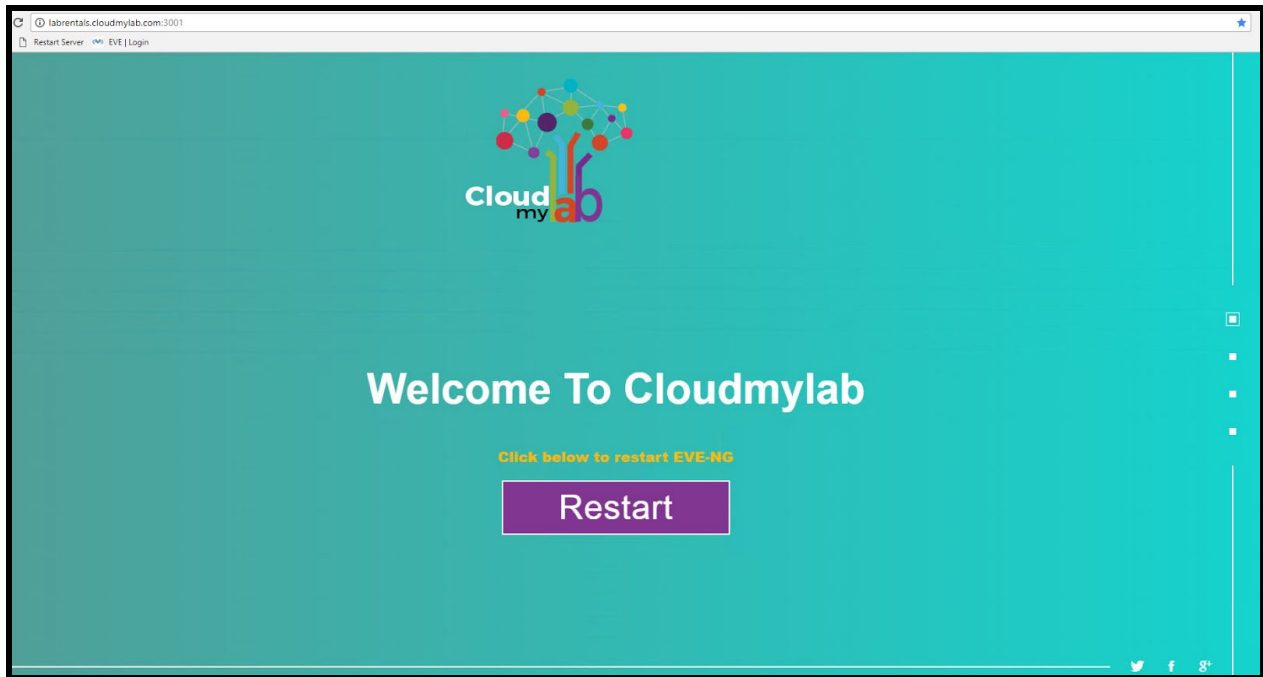

1. Restart Server
2. EVE Login

B) Click on "Restart Server" bookmark

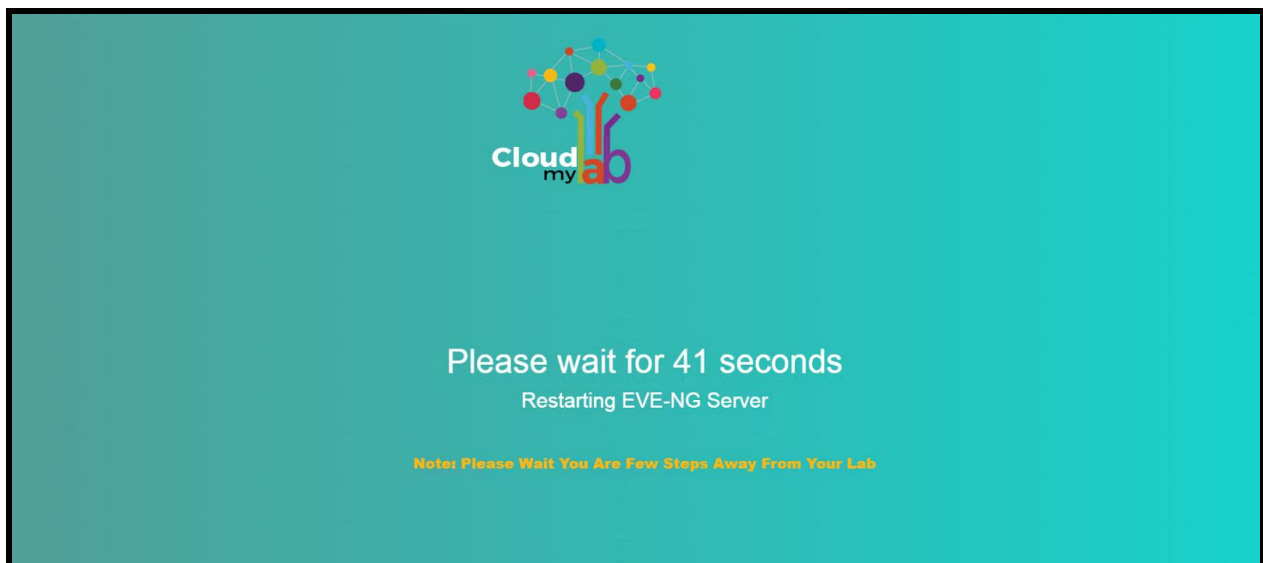

OR You can enter the link to restart VIRT given in access mail manually in chrome's address bar.

C) Click on "Restart" button.

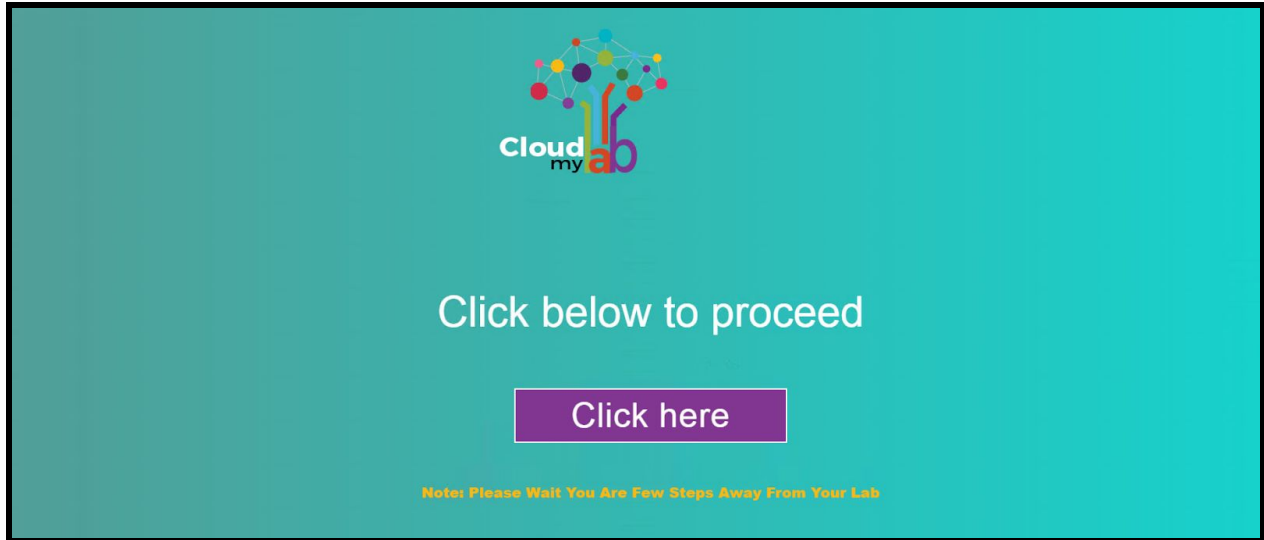

D) After that you will get the following screen with 45 seconds countdown timer.

Please be patient and wait for the timer to expire.(Do not reload the page)

E) After the timer expires, following screen will appear. Click on "Click here" button to proceed.

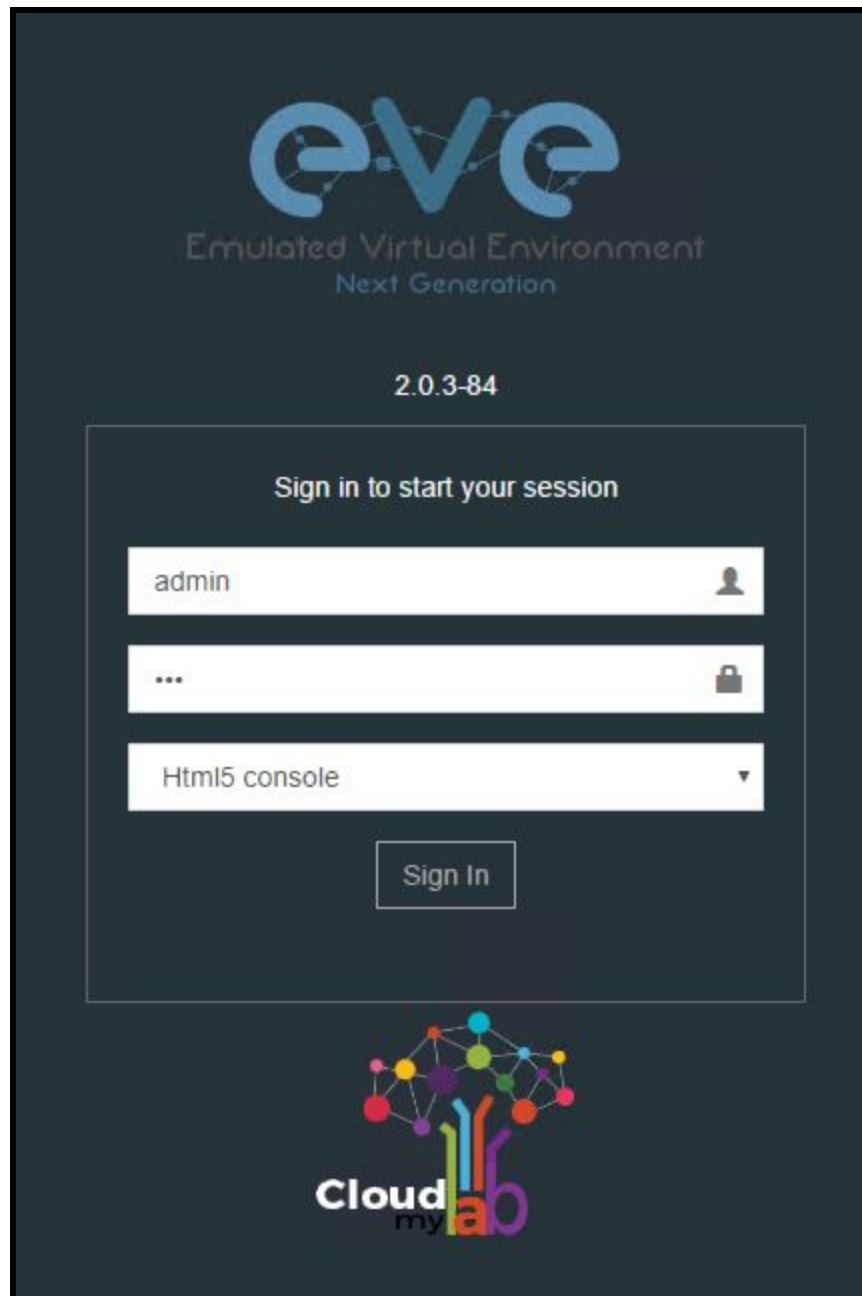

F) You will see the following window.

EVE-NG server address: Provided in access mail

Username: **admin**

Password: **eve**
